

How to Play the Drawing Telephone Game

A STEP-BY-STEP GUIDE

8-30 players. Set a timer, each turn is one minute.

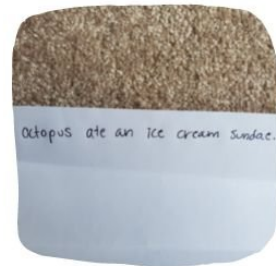

01

Fold the paper four times so it looks like this:

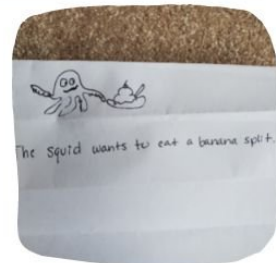

02

On the first line, players will write a random sentence. It works best with a noun and a verb in it. The sentence is supposed to be hidden from other players. You can have the first player also write their name on the sheet.

03

The first player keeps the sheet unfolded and passes either to the right or to the left. The papers will move around in a circle. The second player will draw what they think the sentence would look like.

04

After the second turn, fold the top section back so that the next player sees only the previous section. This is what the back of the paper will look like:

05

Continue passing until you reach the bottom. Players will go back and forth between drawing a picture and writing a sentence. When done, unfold the paper and return to the original owner!
