

## 1 Spy Letters

Look around, can you find an everyday object that looks like a letter from the alphabet?

- Go on a letter hunt. Look in cupboards for pegs, kitchen utensils, jewelery, or look outside for fences, cars, garden tools. Where else could you look?
- Take photos of anything that looks like a letter. Could you put your pictures together to spell a kupu Māori, or another word?
- If you cannot find an object that looks like a letter, combine a few different objects together to form letter shapes!

The artist Sister Corita made colourful artworks from words, and often created unusually shaped letters.

Photography tip-try placing your found items on a plain background so they show up well.
