

AI Usage Disclosure / Authenticity

AI embedded into software and image generators may support, but not replace, authentic creative outcomes. This document is to provide an ongoing record of the role of AI in the development of accompanying evidence. The transparent use of AI tools is necessary to ensure authenticity.

Attributions and appropriation (review submission evidence) Clearly attribute and acknowledge all material originating from another source (images, text, audio).	

AI Usage Categories Complete the sections below or refer to pages in your submission outlining how you used any AI tools in each part of your process. If you did not use AI in a particular category, please write "Not used".
Topic Development - Brainstorming with AI about the proposition or theme. <ul style="list-style-type: none">• AI tools, prompts and how they are used:• How I used or adapted AI input:
Idea Generation – AI assisted compositions, concept drafts, visual idea expansion or refinement. <ul style="list-style-type: none">• AI tools and how they are used in my iterative developments:• How these influenced my decision-making and idea development:
AI-Generated Imagery - Use of DALL·E, Midjourney, Firefly, etc. <ul style="list-style-type: none">• AI tools used:• Prompts, settings or parameters entered:• How I used/edited the AI-generated content:• Degree of change and originality:
Software with Embedded AI - AI tools within software for enhancing or modifying images. <ul style="list-style-type: none">• Software and AI tools used: e.g., Generative Fill, Retouch• How imagery was modified, creative choices made by me:

Student Declaration:

I confirm this work is my own and the use of AI tools is fully disclosed in the above statements.

Name: _____ **Signature:** _____ **Date:** _____

Teacher Attestation:

I confirm the evidence submitted is the authentic work of the student and the AI disclosure statements are accurate.

Name: _____ **Signature:** _____ **Date:** _____
